

# WebSentry

## OUR AUTOMATED WEBFARE SEARCH ENGINE

Over **90%** of the time our traditional airline reservations system finds the lowest airfare. **WebSentry** allows us to check the web for lower airfares automatically. Dozens of websites are monitored simultaneously in less than 3 minutes, so that your company gets the best fare without wasting your employee's valuable time. WebSentry also has built in thresholds that let you calculate the risk/reward factor of booking a webfare.

The screenshot displays the 'Travel Console' interface for Accent Travel. The top navigation bar includes 'Search', 'Saved Queries', 'PNR Wizard', 'PNR Search', 'Traveler Profiles', and 'Preferences'. The user is logged in as 'tom' on Thursday, Jun 13. The main content area is titled 'Fare Search Results' and shows a table of 'Lowest Fares Found' with columns for 'Vendor' and 'Fares (USD)'. The search criteria are: Departure City (BTV), Destination City (SFO), Date of Departure (Jul 12, 2002 Anytime), Date of Return (Jul 18, 2002 Anytime), and # of Passengers (1). The fare table lists vendors such as American (614.50), Galileo GDS (451.50), Delta (619.00), Continental (533.50), NetFaresOnline (No Response), Northwest (594.50), US Airways (No Response), and United Airlines (550.00). A 'Notes' section explains that Expedia, Orbitz, and Travelocity are excluded from the summary table. A grid of vendor buttons is visible at the bottom of the interface.

Vendor	Fares (USD)
American	614.50
Galileo GDS	451.50
Delta	619.00
Continental	533.50
NetFaresOnline	No Response
Northwest	594.50
US Airways	No Response
United Airlines	550.00

Search Criteria	
Departure City	BTV
Destination City	SFO
Date of Departure	Jul 12, 2002 Anytime
Date of Return	Jul 18, 2002 Anytime
# of Passengers	1

Air Canada	AirTran	Alaska Air	Amenca West	American	Continental
Delta	Expedia	Frontier	Galileo GDS	LowestFare	NetFaresOnline
